BAPTIST CHURCH PLANTING MISSIONARIES IN THE BASQUE REGION OF NORTHERN SPAIN

Highlights

- In late September, picking up where our last letter stopped, we had a very good intensive Bible institute at Aierdi. Alberto Zermeño taught an excellent course on the Fruit of the Spirit.
- The next Saturday was a very special one for our Goierri congregation. Two of our young adults were married at our newly rented building. One of our young ladies did a beautiful job of decorating, and the building, which still has a strong industrial look to it, was transformed into an attractive wedding scene! Pray for Jon & Vero. He was recently saved and baptized, and both of them are growing in the Lord.
- We immediately made plans to fly to the States for our son's wedding. Danny and Jordan were married in Panama City. They are living in Greenville, SC, making plans in the next year or so to head over to Spain for ministry.

Once again we are preparing for the region-wide Christmas Gospel Postcard Project! Lord willing, we will be able to send 27,000 of these special messengers to that many homes in our area.

Each of these towns is "adopted" by a church or an individual. The cost for the towns varies according to the number of inhabitants, so the figures go from \$5.00 to \$567.00! This amount covers both the

printing of the cards as well as the postage for sending them.

The image above is the front cover, while on the back there is a bilingual message and an invitation to visit the church website, where those interested can watch a Gospel video presentation.

If you would like to pray and participate, please visit the website and be a part of getting the message of salvation to many families!

DANNY & JORDAN. None of us knew that Miss Phillips, who came on a month long missions trip in 2013, would end up as part of the family . . . but we are delighted! Their wedding was simple and beautiful.

JON & VERO. I had the joy of marrying them just a few weeks after his baptism. Pray for them as they grow and seek God's will. Pray also that Jon would find a good job—not easy in the horrible economic climate of Spain.

CERTIFICATES. This group of believers did all the preparation work for the 33rd Intensive Institute of the Bible and earned a certificate. Three of those in the picture have accumulated over 100 hours of institute training.
