Daniel Family Update

June & July 2010

Praises:

- World Wide's fellowship week in June was a blessing.
- We had the opportunity to spend a week in youth camp where we saw several children get saved.

Prayer Requests:

- Pray that God will guide us to good churches that would partner with us in this ministry to Mexico.
- We are eager to start full-time deputation. Pray that we will soon be able to do so.
- Please, pray for continued safety as we are traveling.

I don't know how it is for you, but for me the summer always seems to fly by. There seems to be so many things to do while it is warm. I was recently reminded that we are not the only ones that are busy during the summer. In fact no small number of ants made it clear to me that I was hindering their work of the day.

After the little red whelps began to subside, I thought about what the Scripture tells us about the ant: "Go to the ant thou sluggard; consider her ways and be wise."

It also says, "The ants are a people not strong, yet they prepare their

meat in the summer."

As individuals they are seemingly insignificant, but when working together they can accomplish so much.

It really adds up quickly when each member does its small part. So it is with us in the cause of Christ. If you get busy working for God He can use you to do great things for Him.

When do the ants store up their food? They store

up during the summer because they know that winter is coming. As Christians do we not have a more compelling reason for doing our work, now that even the ants do? There is coming a time when our time to "lay up treasures in heaven" are past. You do not have the promise of tomorrow. Have you done your best for God today?

We know that our Lord will return at any time. There is an urgency to our message. I believe that is why God instructs us to "consider the ant" and to be busy serving Him.

Family Fun

What could be more fun than driving all over the country? I thought that it sounded like fun but, the kids have been having to get accustomed to the many road trips that we are making now.

Did you know?

Recent research stated that **Guadalajara** was the highest ranking major Mexican city having the second strongest economic potential of any major North American city and only Chicago scored more highly for sheer economic potential. In the same research it was considered the "city of the future" due to its youthful population, low unemployment and large number of recent foreign investment deals.
