## Praises:

- We praise God for continually meeting our needs and for the continued safety while traveling.
- We praise God for the great time of encouragement and learning we had in World Wide's Family Fellowship Week in June.

## Prayer Requests:

- Please, keep Mexico in your prayers due to the continued violence there.
- Please, pray for God to use us the upcoming youth camp and VBS that we'll be participating in July.
- We ask that you pray that, if the Lord is willing, we'll be able to raise the majority of our needed support in 2011.

*How often do you think about how much children look like their parents? With a new baby in the house we are again getting many comments from people expressing who they think Kevin looks like. It reminds me of what Paul wrote to the Ephesians (5:1), "Be ye therefore followers of God, as dear children". Literally, we are to mimic our Father God like our children mimic and take on our characteristics. Hopefully, people don't have to think long and hard before they say that you look like the heavenly Father.*

*Speaking of children, keep us in your prayers as we are heading into back to back weeks of youth camp and VBS. We are looking forward to the opportunity to impact the lives of young people for Christ. Please, pray that the Lord will work among these young people. It is so important that we reach the younger generations and teach them the things of God. Our society has such a negative impact on even the church youth that we must stand*

*for truth and show them victory in our Christian walk,*

*As far as the past two months are concerned, we have continued to contact churches, present the mission to Mexico, and even spent some time filling the pulpit for a preacher that was out of town. Please, pray that the Lord will continue to guide us to churches that are interested in partnering with us in this endeavor.*

*On the third week of June World Wide had its Family Fellowship Week (hosted at New Testament Baptist Church in Kinston, NC) that we were able to go to. It was a good time of encouragement from the Word as well as fellowship with the brethren as the name implies.*

*Well, once again we would like to tell you that we are very thankful for your prayers and support. We pray that God will richly bless you for your part in reaching others for our Savior.*

## Family Fun:

Life has become so much more adventurous with warm weather and Freddie walking now. There is just so much to explore!

## Did you know?

The 2010 census in Mexico revealed that people claiming to be Roman Catholic dropped by more than 4% since the last census, most of which was gained by "evangelical" churches.
