April-May 2003

Dear Co-Laborers in Christ,

Greetings from Canaan Airbase in the wonderful name of our Lord!

"Except the LORD build the house, they labour in vain that build it: except the LORD keep the city, the watchman waketh but in vain..." Psalms 127:1 "And this know, that if the goodman of the house had known what hour the thief would come, he would have watched, and not have suffered his house to be broken through." Luke 12:39 Unless the Lord watches over us and our property, we will vainly try to keep it. We have had some problems from kids in our surrounding neighborhood, and even as far as twenty miles away. Most problems are small, and come from what seems to be basically good kids just having fun, but lacking basic respect for the property of others. Our hangar was broken into I believe on a Sunday morning rather than Saturday night. There was no apparent damage inside, and only some minor spray painting on the back of the hangar. We guess that they were in the 10 to 12 years old range. We have now installed a burgular and fire alarm system in the hangar. But again, only the Lord can truly protect anything!

News & Praises: > The Lord has so blessed concerning that kidney stone. It is still there, and slowly, but steadily dropping toward the bladder. I have been pain free for eight weeks now! Thank you for praying! My doctor is quite surprised that it has not been giving me grief. > Missionary Mark Robertson and his Maule airplane is back in Yellowknife! What a joy to have Mark, and his wife Carla here during the final work. > We had a small, but very efficient two person work team come down from one of our churches in Maryland to help with landscaping at our MA office/home. They purchased all the shrubbery, manure, and planting soil mix, and worked hard... they even made us work hard too... and we got it all planted and watered. Thank you Lord, and thank you Tom & Jenna! > Work is slowly progressing on the runway extension. The eight sections of plastic pipe are here for the ditches, and as soon as the rain and wetness allow, we will be putting them into place, adding fill dirt, and planting grass. > Tore Mitchell is in Greenville, SC, working on Missionary Jim Pfaffenroth's Piper Pacer. It is an older fabric covered airplane, and is in need of a total replacement of that covering. Bro Jim and his family faithfully serve in Uranium City, Saskatchewan, Canada.

Pray for: > Fruitful soul winning and open doors for Bible studies. > Provision of funds and labor to complete a number of airfield facility projects such as septic system, runway extension, runway lights repair, and road improvement. The Lord is working! > The passing of that kidney stone and return to flying status, and the ability to resume Instrument flight training here. > For our two part time aircraft mechanics families... Josh Goodman and Emily McKay as they are to be married in July, and also for Rene McClintock as her baby is due in seven weeks. > Our granddaughter Ashley as she is planning to go on a summer missions team to Costa Rica on June 12th for ten days. > Open doors to present ministry for the Mitchells and the Hunts.

Under HIS' Wings,

Jack + Jonnie
