Dear Friends,

How good it is to greet you once again, and thank you for all of your kindness to us.

Just before Christmas, we had electric heat installed on the second floor in our living quarters. We had a system which we used occasionally, which was here for about forty years. It made quite a difference in the bath-room on a cold winter night. When we first came to Burlington, in 1982, we had to go outside.

On the fifth of January, Gerald and our driver, Neil. Were in an accident. A young fellow hit us, resulting in four thousand dollars worth of damage. Praise the Lord, we had no lasting injuries. Our insurance company wrote it off, and allowed us a little over two thousand dollars.

We looked at several used cars, and when we were walking out of one office, they asked what is your top price? we said four thousand. They said they would let us have the 96 Eagle for four thousand, taxes in. We looked around, then settled on the Eagle. It has around sixty thousand miles.

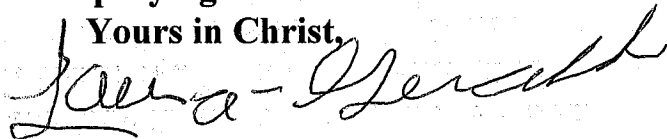

We had another good Song Night on April 9th. We had two ladies here for the first time. Laura had a good chat with one, who is searching, and we have talked to the other. Please pray for Paula and Kathleen.

We praise the Lord for the extra help that has come in; a little here and a little there. With the sliding dollar, we have seen a change of two and three hundred dollars. We do not regret dropping our first supporting Church, though it made a difference of four hundred dollars a month. We hope to pay off the fifteen thousand still owing on our building. This would free up extra each month.

As we write, Bonnie Keddy has not had her hernia operation. This is number nineteen, and with other problems, she is a high risk case. She was cancelled when we were at the hospital on Wednesday 27 and again before we got there on the 29th. Please pray.

Thank you for sending us your prayer requests. That is one thing we can all do. Thank you again for praying for us.

Yours in Christ,

Laura and Gerald Mosher
